POLITICAL PARADE

By CLEM WHITAKER

Justly or unjustly, California is known throughout the United States as the state which has more "isms" than Kansas has jack-rabbits.

Here, the Utopians, the Single Taxers, Technocracy, the EPIC movement, the Townsend Plan and Ham and Eggs for Everybody have all flourished like the green bay tree. Here, too, Sally Rand and Aimee Semple McPherson have both played to capacity houses, while nudist cults have vied for attention with Father Riker's Holy City.

California, in fact, has been accused of being economically neurotic, but has blandly brushed it all aside as just the vivid coloring of a state that's different.

There are other "isms," however — Communism and Fascism, "cells' and Bunds— which have gained a foothold here and which California, in face of the national emergency, is preparing to deal with drastically and decisively. Against radicalism, in all its forms, the state legislature is making ready to crack down with a vengeance for this state, according to the Dies committee, has one of the most active Communist "fronts" in the country—and is second only to New York in alien population.

Currently, the Tenney committee is engaged in a thorough inquiry into un-American activities in California, and its findings, when they are released, will likely be read with interest by the Department of Justice as well as California officialdom.

The legislature, too, is preparing to put teeth into its laws governing seditious activities, as indicated by the following bills now pending:

The Sabotage Prevention act, by Assemblyman Wollenberg and Senator Slater, making it a felony to destroy or tamper with the property of any defense industry.

The Biggar act, making it unlawful for any person by written or spoken words to advocate, teach or justify the curtailment or abolition by force or violence of any of the rights, privileges or immunities, guaranteed by the state or federal Constitution.

The Tenney act, providing that no person shall be employed by any state department or agency who is a members of the Communist Party or any other group which "aids or abets a program of sabotage, force, violence, sedition or treason against the government of the United States.

There are many other similar acts, equally drastic. California's easy going tolerance of Hitler's Bunds and Stalin's "cells" is no more. The legislators have read what happened in Europe!

St. Lucy's Women's club is sponsoring a whist party Saturday, March 22, at 8:15 in the parish hall at Third and Rincon. Committee members are Mesdames Anna Field, Fred Smith and John Fortini.

The matter pertaining to sidewalk and curb installation was set aside until further information is received from the W. P. A. This business was left in the hands of Herbert Shadle and his committee.

All unfinished business of Old Settlers' day was wound up and the meeting adjourned until April 14.

The Foreign Invasion That Must Be Stopped

Buccaneers Score Victory Over Gilroy

The Campbell High school varsity showed the old fighting spirit when they dealt the Gilroy Mustangs a resounding 38-20 smack last Friday night.

The Mustangs showed lots of fight during the first half of the game, but stood and watched the Campbell boys march away from them in the last half. Campbell's high point man was Alvin Hartley with 10 points, and John Williams was close behind with 9 points. These boys stepped out with a spirit never shown before.

The 30's played a fast, close and very exciting game the score being 19-19 when the final gun sounded. The three minute over-time was tense with excitement, each team determined to win. The end of the three minutes found the Campbellites out in front of a 27-21 score. Some real team work was displayed and Benny Carvelho was high point man of the evening with 15 points.

Next Friday Campbell journeys to Mt. View for the last game of the season. Campbell is now tied with Santa Clara for second place in league standing.

The program of the day was along musical lines. Mrs. Carboni read a short article on harmony in nature.

Musical selections of yester-year were played on the phonograph aided by an amplifier. Among the familiar voices heard were John McCormack, Melba, Galli Curci, Schumann-Heink, Caruso, Geraldine Farrar and others.

Mrs. Carboni read short biographies and the stories of the operas which made it more interesting.

The ladies spent the afternoon sewing for the Red Cross and after the program, refreshments and a social hour were enjoyed.

The next meeting will be held at the home of Mrs. George Smith, Jr.

A play was selected for the next benefit to be put on some time in May for St. Lucy's church. Dean Chamberlin was appointed director of the production and tryouts will be held Tuesday evening at 7:30 in the hall. All members are urged to be present as the cast for the play is large.

After the business session refreshments were served by The Footlighters with the performers in the olios as guests. Mervyn Nicholls was in charge of refreshments.

High P.-T. A. Holds Meeting Wednesday Night

The Fathers' Night meeting of the Campbell Union High School P.-T. A. held in the auditorium of the school last evening was well attended and an interesting program was presented with Dr. F. R. Anderson, member of the school board, master of ceremonies.

Music was furnished by the music department of the school. Numbers presented by the orchestra, under the direction of A. A. Thielke, were Introduction to Act I of Lohengrin by Wagner, with a trombone solo by Clyde Smith; Ballet Music from La Gioconda by Ponchielli; Pizzicato Polka by Strauss.

The a cappella choir, directed by C. P. Klassen sang "Lost in the Night," "Marjory, Wake Up!"; Czechoslovakian Dance Song," "O Holy Lord," and "Cherubim Song."

Paul Pitman, dean of men of San Jose State college, as speaker, disregarded the topic originally announced for his address, instead giving an informal talk based on the problems the modern youth is called upon to face. Warning his listeners that if they had come to be amused they were doomed to disappointment, Mr. Pitman's talk was both gloomy and hopeful. He said that each generation leaves unsolved problems for solution and if the present generation does as well with the ones we are leaving as their "Papy and Mammy" did with theirs, the world will continue to progress, as always, with building on the foundations of past generations. Let "Fear not, trust and go forward" be the motto of the builders of today, was the thought that Mr. Pitman held for our youth.

Preceeding the program a short business meeting was called to order by Mrs. F. A. Jacobson, president of the unit. The report of the nominating committee was accepted and the following officers elected for the coming year:

President, Mrs. Anthony Jurras; first vice president, Mrs. Alfred Hansen; second vice president, Mrs. Howard Smith; secretary, Mrs. Clarence Warren; treasurer, Mrs. Dan Clark; historian, Mrs. Frank Blair; auditor, Mrs. Henry Jensen; and parliamentarian, Mrs. F. A. Jacobson.

It was decided to give a life membership this year, and Mrs. Frank Blair and Mrs. C. E. Fagalde appointed as a committee to investigate.

An afternoon card party will be held in the community hall on April 4 to raise the necessary funds for the purchase of a life membership.

The April meeting of the unit will be held on the 16th when officers will be installed and a question box be conducted by the faculty of the school, with Mrs. G. E. Jeffers as chairman of the day.

BUSINESS REVIEW

THE FIRST NATIONAL BANK
Los Gatos, Calif.

Whether or not you are in business it is a smart practice to maintain friendly relations with a bank and particularly an independent bank which is owned and operated by people living in your vicinity.

Independent banking is the American way of banking. It is the foundation upon which our nation has built its marvelous growth and has been a most important factor in the industrial and agricultural development of these United States.

The customer of an independent bank deals directly with the heads of the business rather than with an agent which of course is a big advantage at all times and particularly when applying for a loan.

The size of a bank does not indicate its safety. Good management in any business and particularly a bank is the best assurance of safety. In The First National Bank of Los Gatos we find all of the above conditions prevail and it offers every service that is consistent with conservative management. Its officers, directors and employees who are all local residents cordially invite you to talk over your financial requirements with them.

The First National Bank of Los Gatos is of course a member of the Federal Reserve Bank and the Federal Deposit Insurance Corporation.

Mischa Elman Next Concert Series Artist

Not since Menuhin played in San Jose a year and a half ago, has San Jose heard a major violin recital. Mischa Elman, the renowned master, will be heard on Saturday evening, March 29, as the third event of the San Jose Concert series.

Elman was born in 1892 in Russia. Before he was five, Mischa displayed almost perfect pitch, and by the time he was six, the child was making music on his grandfather's violin. At ten, Leopold Auer, greatest of all teachers ,heard the young prodigy, and when Mischa was only twelve, Auer gave him a scholarship to the St. Petersburg Conservatory of Music.

Two more years saw the phenomenal genius giving recitals in Germany, Vienna, Paris and London. A command performance was given in Buckingham Palace before King Edward VII. Denmark, Norway,, Sweeden followed, and at sixteen Mischa Elman was invited to the United States, making his American debut with the Boston Symphony.

For over a quarter of a century the name of Mischa Elman has been synonymous with the violin, and stands as a model of violinistic perfection.

Student rates are available for the Elman concert in the San Jose civic auditorium on March 29.

Bernice Coy of North Third street, accompanied by Glynn Leach and her aunt and uncle, Mr. and Mrs. C. E. Larson of San Jose, motored to Alameda Sunday to visit Miss Coy's parents, Mr. and Mrs. Harry Coy. The FARMERS CORNER

by RALPH H. TAYLOR

Executive Secretary Agricultural Council of California

"Don't hesitate to strike; Uncle will feed you!"

When the strike of lemon pickers in the Ventura county citrus belt was called recently, that pledge of financial aid from Uncle Sam, constantly reiterated by union leaders and strike agitators, was one of the most persuasive arguments used to bring about a general walkout.

Organizers of the strike were most explicit in their instructions. Workers were told to congregate in large groups at the local offices of the SRA, the County Welfare department and the State Employment commission—and not to leave until they were put on the relief rolls.

And a few days later, State Relief Administrator Ralph J. Wakefield, testifying before the joint legislative committee investigating abuses in relief administration, admitted that hundreds of the Ventura strikers already had been certified for relief. The strike leaders had made good on their boast that "Uncle will feed you!"

The same legislative investigating committee heard farmers and farm representatives from Ventura county denounce "relief for the purpose of encouraging and supporting a strike condition." Farmers bluntly (and correctly) charged that as taxpayers they are being forced to finance strikes against themselves — which, if successful, would put many of them out of business.

There can be no doubt of the credibility of the growers who presented the facts of the Ventura county situation to the legislative committee of inquiry. Among them were Cecil Foster, chairman of the Ventura County Lemon Growers committee; E. C. Kimball, grower and packer and vice president of the State Farm Bureau federation, and former senator Walter Duval of Ventura. In fact, Relief Administrator Wakefield sought to justify the procedure, rather than to deny it, saying that he was complying with the policy laid down by State Relief commission, which he summarized as follows:

"Examine each individual case on its merits, determine need and eligibility, and if there is no record of the applicant having refused *suitable* employment, give him relief."

The State Employment commission, said Mr. Wakefield, determined whether or not relief applicants had refused "suitable employment." Finally, Mr. Wakefield testified, the State Employment commission would not certify any applicant for work on a ranch or in an industry where strike conditions prevailed.

The testimony was so startling that Senator Jerrold Seawell of Roseville, one of the members of the investigating committee, finally exclaimed: "Let's abolish the empolyment service!" And Mr. Seawell, it should be noted, has been a member of organized labor for years and has long been its champion in the halls of the legislature.

Some 3,000 pickers walked out in the Ventura county lemon strike, tying up not only picking but also halting work in the cooperative packing plants. If all of the strikers were certified for relief, the investigating committee was told the cost to the taxpayers would be $100,000 a month. And it was also testified that this would likely become a permanent cost, as migrant workers, anxious for employment, were willing to take the strikers' jobs. A great share of that cost, of course, would be borne by farmers, while the remainder would be paid by other citizens who were not parties to the strike and had not been consulted concerning it.

It is reported that the legislature, incensed at this practice of using public funds to finance private labor wars, will enact stringent legislation, defining and restricting the powers of the relief administration to give relief to persons who voluntarily quit their employment. And certainly it is to be hoped that the legislature will do so, for the present practice is a flagrant abuse of public power which is tantamount to misuse of public funds.

While wage demands were ostensible cause of the Ventura strike, the actual objective, as many of the labor organizers frankly admitted, was "unionization of the citrus industry." Under the contract proposed by the strike leaders, any union employe in the industry would have the right to refuse to work with non-union employes. In other words, the strikers were seeking to drive the opening wedge for a closed shop contract.

California farmers, knowing that closed shop conditions would put them completely at the mercy of city labor bosses, with no understanding of farm problems or care for farm costs, are, for the most part, bitterly opposed to attempts to give labor unions the whip hand over their industry. But apart from the merits of that controversy, the man who quits his job of his own free will certainly has no right to support from the working men and women of California who must foot the bill for relief costs.

John Blaine Is Painfully Injured

John D. Blaine who was very painfully injured last Thursday while bicycling on Saratoga road is now up and around the house, although still giving an injured shoulder and arm complete rest.

Two dogs that came dashing out onto the road were the cause of the accident, one of them nipping at his leg and foot and the other running in front of the wheel. He was trown to the pavement and was knocked unconscious for about 15 minutes.

Ranchers nearby brought him home in a car and a physician was summoned to care for a cut on his head. Examination disclosed numerous bruises and abrasions, which with the shock and other injuries confined him to bed for several days.
